### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### **Part III DETAILED ACTION**

#### ***Notice to Applicant(s)***

1. This action is responsive to the following communications: amendment filed on **2/15/05**.
2. This application has been reconsidered. Claims 1-23 are pending.

#### ***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1, 2, 3, 5, 6, 7, 8, 9, 11, 12, 13, 14, 15, 16, 17, 19, 20, 21, 22, and 23 are rejected under 35 U.S.C. 102(b) as being anticipated by Maniwa et al (Maniwa) (U.S. 5,768,483).

With respect to claims 1, 2, 5, 7, 8, 11, 13, 14, 15, 19, 20, 22, and 23, Maniwa discloses a multi-function apparatus (figure 1), comprising a plurality of image forming apparatuses (fax and printer) (figure 3), each comprising a controller (figure 1) including a program memory for storing a program used by each of said plurality of image forming apparatuses (302, figure 3); a buffer memory (303); a data transmission mechanism connected to the buffer memory (column 6, lines 53-59), configured to connect said plurality of image forming apparatuses to each other so as to allow a data transmission (figures 1 and 3); and a connector (312) configured to connect an external storage (109) to the buffer memory (column 6, lines 1-10 and 53-59) (HDD 109 is

Art Unit: 2626

connected to the controller which is connected to the buffer), so as to allow a data transmission from the external storage (109) to said buffer memory (column 12, line 65 to column 13, line 2), said external storage storing data of programs to be respectively used by said plurality of image forming apparatuses (column 12, line 65 to column 13, line 13), wherein, when said external storage is connected to said connector, said data of said programs stored in said external storage are transmitted to said buffer memory through said connector and are downloaded into said program memory included in said controller of each of said plurality of image forming apparatuses, respectively, through a data transmission using said data transmission mechanism (column 12, line 65 to column 13, line 13).

With regard to claim 3, 9, 16, and 17, Maniwa discloses the data of the programs transmitted from the external storage to said buffer memory are downloaded with the communications mechanism to the program memory included in the controller of each of said plurality of image forming apparatuses at a transmission rate faster than a regular transmission rate used for said control data (column 13, lines 14-27).

With regard to claims 6 and 12, Maniwa discloses a facsimile device and a copier (figures 1 and 3).

With respect to claim 21, Maniwa discloses selecting an image forming apparatus to which programs will be downloaded, wherein the selection is made from an operation panel (column 12, line 51 to column 13, line 22).

***Claim Rejections - 35 USC § 103***

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claims 4, 10, and 18 are rejected under 35 U.S.C. 103(a) as being unpatentable over Maniwa in view of Hu et al (Hu) (U.S. 5,459,579).

With respect to claims 4, 10, and 18, Maniwa differs from claims 4, 10, and 18 in that he does not clearly disclose a UART. Hu discloses a multifunctional system that uses a UART as a communication medium (column 5, lines 26-35). Therefore, it would have been obvious to one of ordinary skill in the art at the time of the invention to have modified Maniwa wherein a UART is used as the communications medium. It would have been obvious to one of ordinary skill in the art at the time of the invention to have modified Maniwa by the teaching of Hu in order to improve the communications process.

***Response to Arguments***

7. Applicant's arguments with respect to claims 1-23 have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
